GJ Website information on recycling containers:

GJ does not require that you use their containers. Storage tubs, laundry baskets, and boxes work just as well. Be sure that your containers:

- 1) are not falling apart;
- 2) weigh no more than 40 lbs when loaded with recyclables;
- 3) do not collect rainwater, leaves, garbage, etc, and
- 4) allow you to follow our guidelines for separation/preparation of materials.

Note that four containers are needed to properly sort all materials.

Options for recycling containers:

- 1) You may use your own containers, which meet the above requirements.
- 2) You may use the City-provided 22- gallon reusable recycling bags (4 are available at no charge, additional are \$3.50 each)
- 3) You may purchase green, open, stackable recycling bins for \$12.00 each. (These are UV-resistant, 18-gallon containers with the gecko logo. Dimensions are approximately 25" by 16" by 13".)

The City delivers containers once per week to get you setup, usually on Friday. They can also be picked up at the office at 333 West Ave. Bldg G, right behind the drop off.
